THE DOMINION DIFFERENCE

IMAGECAST® EVOLUTION

ALL-IN-ONE ACCESSIBLE PAPER-BASED VOTING SYSTEM

- The ImageCast® Evolution All-In-One design enables voters with varying abilities to independently and privately mark, review, and cast a paper ballot.
- With the ImageCast® Evolution, everyone votes on the same paper ballot, and casts their ballot on the same tabulator.
- Built in accessibility without compromising voter privacy.

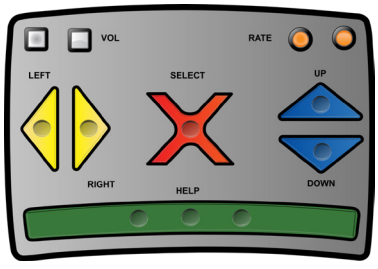
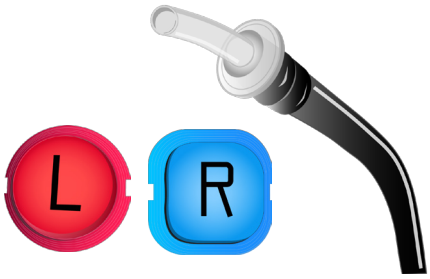
SEVERAL WAYS TO MARK YOUR BALLOT





THE DOMINION DIFFERENCE

IMAGECAST® EVOLUTION

ENGINEERED ACCESSIBILITY: THE ICE BALLOT PAPER PATH

The ImageCast® Evolution unit has an onboard printer, so once the blank ballot is inserted into the machine, the voter can begin their accessible voting session, vote in a fully HAVA compliant way, and review their ballot selections on the same unit that is actually going to count the ballot, before independently casting it.

This is **all without the ballot ever exiting the machine**, thus not requiring poll worker intervention.

It is completely private.

VIRTUALLY INDISTINGUISHABLE VOTING MARKS

The ImageCast® Evolution features a collection of voting marks and write-in name fonts so a machine marked ballot is virtually indistinguishable from a hand marked ballot.
